# WHY DIGITAL EVIDENCE FIRST RESPONDER ?

An organisation can be a victim of cybercrime or responding to a legal / regulator requirements. Any mishandling of fragile & temporal digital evidence can ruin the case. It is the duty of each IT staff to know how to acquire & preserve digital evidence at the very initial stage itself to avoid any blame of tampering.

Eight hours (spread over one or two days) training workshop is designed to meet the Indian Techno-Para-Legal requirements for empowering a person who acquires (collect) the digital evidence.

DEFR TRAINING MODULE

INDIAN LAWS
- Information Technology Act
- Evidence Act
- Indian Panel Code

CYBER INVESTIGATION
- Pre- Acquisition Investigation
- Cyber Forensics
- Documentation

REGULATORS
- RBI Regulations
- SEBI Regulation
- PDPB Regulations

DATA ACQUISITION TOOLS
- Network Forensics Tools
